

Extending your reach into Canada

Made in Canada.
Connecting the U.S.

Canada is more than just a friendly neighbor to U.S. businesses that are accelerating their global trajectory. As part of Bell Canada, Canada's largest communications company with the largest network, over 140 years of experience, and presence in industry-leading data centers across the country, BCE Global has the edge in the Canadian market.

1 Connecting businesses from coast-to-coast

 over 22 million consumer, business and wholesale customer connections	 over 165 thousand miles of fiber	 161 POPs Points of Presence, the most in Canada	 \$4 billion investment in next-generation infrastructure in 2019
---	--	---	--

2 Connecting businesses to speed

 High bandwidth and low latency	 Supporting 10 billion MBs of traffic daily	 Speeds of up to 100 Gbps
---	--	--

3 Connecting businesses to dependability

 MEF 3.0: The only certified carrier in Canada	 Data sovereignty: Once your critical data arrives in Canada, you can be 100% confident it can stay there	 Triversity: Three low-latency routes from coast-to-coast for additional resiliency
--	---	---

4 Connecting more than just businesses

 2020 Canada's Greenest Employers	 Canada's Top 100 Employers	 Over \$150M Bell Let's Talk funding commitment for mental health
