

Extend your customers' reach into Canada—reliably and cost effectively

BCE Global Digital Private Line service

Give your customers a reliable, economical way to connect their Canadian locations. Secure Digital Private Line service from BCE Global, a Bell Canada company, provides dedicated, reliable transport across Canada and at key U.S. locations, with high-performance connectivity.

As a point-to-point service, BCE Global's Digital Private Line transports data, voice and video across the country on a private, dedicated circuit using high-performance digital SONET network infrastructure.

Benefits of BCE Global's Digital Private Line service

- **Reach:** Access extensive inter-city, regional and metro coverage across Canada as well as inter-connection options between Canada and the U.S.
- **Flexibility:** Meet your customers' unique needs with point-to-point, hub and spoke or multipoint configurations and multiple speed and diversity options.
- **Cost-effectiveness:** Reduce costs through channelized service options that aggregate traffic and avoid the need for multiple low-speed circuits – with flexible pricing based on volume and speed.

- **Reliability:** Enjoy business continuity through a protected Synchronous Optical Network (SONET), or self-healing, ring topology that keeps information flowing and ensures data integrity across switched facilities.
- **Expert support:** Ensure top performance of mission critical applications with 24/7 network support and monitoring and a four-hour mean time to repair.

Key features of Digital Private Line service from BCE Global

With Digital Private Line service, you get:

- Dedicated private lines for data, voice and video.
- Lower speeds (DS1, DS3) to serve applications to customer premises and higher speeds (DS3, OC3, OC12, OC48) to backhaul traffic between hubs or extend the reach of other services such as Ethernet and IP VPN.
- Ability to build a series of point-to-point circuits on a single hub and backhaul to a central Point of Presence.
- The option of a clear channel or channelized service.

About BCE Global

BCE Global provides industry-leading broadband, IP and voice wholesale products and services across Canada and at key points in the U.S. and Europe – helping you grow your businesses and meet the needs of your customers.

As part of Canada's largest communications company, Bell Canada, we have access to more than 270,000 kilometers of fiber across the country. Our convenient "meet me" points in the U.S. and Europe provide seamless access to the largest network in Canada.

With an extensive team of professional services experts and 24/7 help desk availability, BCE Global provides high-quality support to interexchange carriers, local exchange carriers, wireless service providers, resellers, Internet service providers, over-the-top providers, system integrators, telcos and cablecos.
