

BCE Global - USA: Working together for a greener future

BCE Global - USA considers sustainability, environmental protection and energy efficiency integral parts of doing business.

Serious about change: environmental targets

- 
 1
 Carbon footprint reduction
- 
 Energy consumption
- 
 Waste management
- 
 Electronic device recovery

As a Bell Canada company, BCE Global - USA plans to be carbon neutral across its operations starting in 2025.

- 
 Increasing electricity efficiency at Bell facilities
- 
 Reducing company vehicles' fuel consumption
- 
 Using business travel alternatives
- 
 Training on environmental issues
- 
 Managing impact of the network
- 
 Assessing suppliers for environmental sustainability

2 Striving to reduce negative impacts on the environment

Leading sustainability efforts

- 
 3
1st
